

Under 8 Game Field Setup

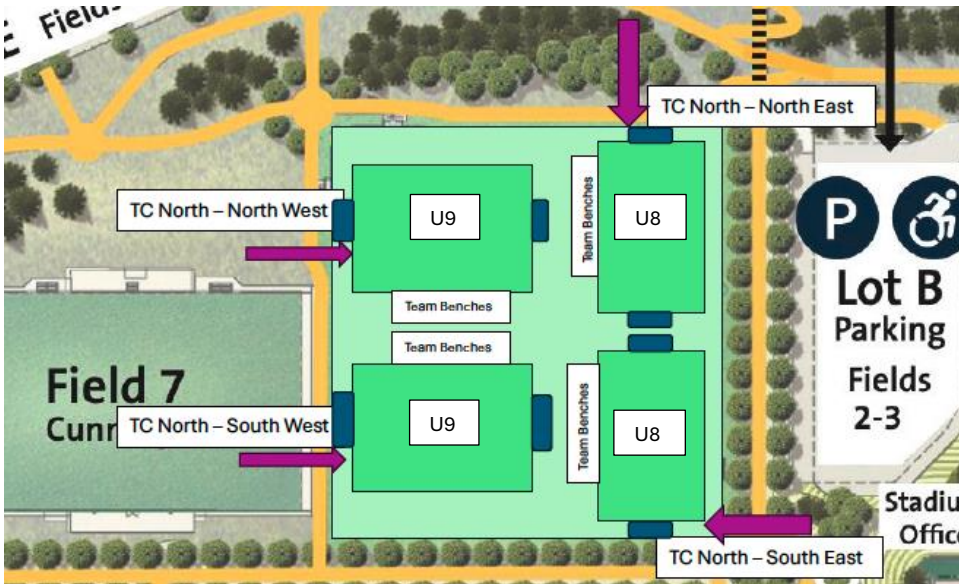

All Under 8 games will be played at Town Centre North.

FIELDS

Most weekends, the field will be setup with:

- Two Under 8 games on the East side (North & South)
- Two Under 9 games on the West side (North & South)

Here is a picture of the setup:

There will be the odd weekend, when we have up to 6 Under 8 games on North. In this setup, all 6 fields are lined on TC North.

GOALS

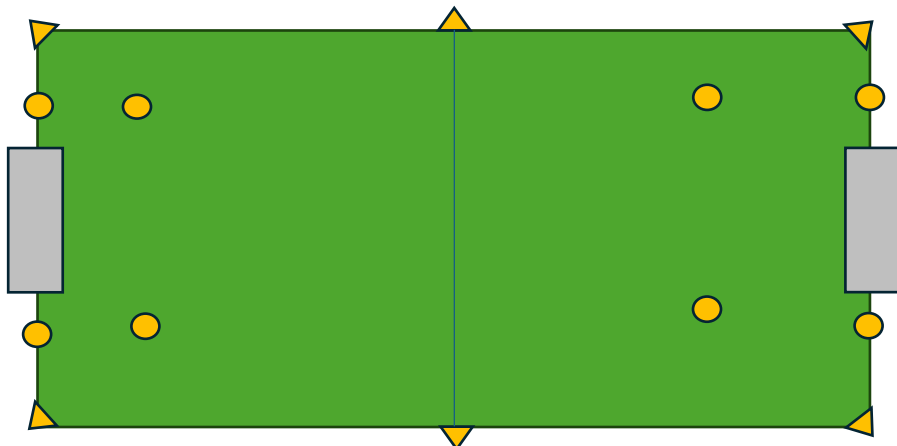

There are multiple goals on TC North. Under 8 games are to use the smallest goals. There are a total of 12 of them on TC North. You will need to move them into place for your game.

FIELD SETUP

First Game and Home Team:

- Fields are 30m wide by 40m long
- The perimeter lines are already painted in white for all Under 8 fields.
- Move goals into place at both ends
- Place cones on the corners of the field
- Use cones to make a goalkeeper box (5m from goal posts, extended 8m into field of play)
- Place cones at the centre line to mark the retreat line (off the field)

After a game has ended, if there is another game, please exchange 14 cones with the next team so that they do not have to reset the field.

If you are the LAST game of the day and the home team, please move the goals back to the fence and pickup all cones.

Benches

There are team benches stored in the green equipment storage behind Cunnings field (near the hill).

The home team is to bring out two benches, one for each team (home and away).

At the end of the game, please hand off the benches to the next teams coming onto the field.

If you are the last team playing, please put the benches back into the green storage bin.

Spectators

Please ask all families to remain outside of the fenced area at Town Centre. It can become a very crowded field and this will keep games running safely.
